

# Basic Concept Learning Management System

# Learning Management System

- LMS is a web-based learning environment that allows teacher / students to access his/ her course materials online and make use of a number of useful built-in facilities to enhance your learning experience.

# Features

- Contains different modules
- Ability for students to communicate and collaborate with teachers.
- Online assessment options with immediate feedback and grade posting
- Shows every aspect of a student's academic life
- Allows parents to view progress
- Centralize administration
- Use self-service and self-guided methodologies
- Able assemble content rapidly
- Supports portability and standards
- Enables personalization of content
- Enables reuse of content

# Session - Day1 (Basic LMS)

**After completion this session you should be able to:**

- **Login**
- **Enrollment**
- **File**
- **URL**
- **Attendance**

# LMS Login
